A400 openWorld

BIZERBA

Flexible, fully automatic slicer for industrial use

More information
High performance
with a wide range of
solutions and options.

Product description

Bizerba slicer A 400 openWorld offers a flexible solution for use in food industry, food stores and food retailing as well as in large kitchens. Based on our openWorld maxim this slicer works with any type of packaging machine in a network.

A400 with multi-lane conveyor belt

Highlights

- Cost savings thanks to fully automatic slicing and packaging - staff can work on other things.
- Product is processed more hygienically thereby staying fresh longer - no touching of sliced portions by operating personnel.
- Flexibility with changing requirements - the A 400 openWorld can also be operated as stand-alone machine.
- Operation should be performed easily without extensive training. With intuitive, language-independent operation and large article memory the A 400 openWorld is the perfect automation solution.
- The A400 open World even meets high US hygiene standard NSF ANSI 8/2012 and offers outstanding operation and cleaning ergonomics.
